Introduction

This rugged designed high power 4 port industrial POE+ Injector is equipped with our high efficiency ColdDesign technology which allows input voltage to meet IEEE802.3af/at standard, also reduce the excessive heat problem to a minimum. And it is also equipped with 2 ports 100M fiber(optional models) that can be used as fiber redundancy, cascaded to your other devices to expand your network application. It is being rigorously tested for your Security, Transportation and Telco application.
