

## V271T/V271R

### Long Reach PoE Extender Over Copper/Coax

### Description

**Yoda V271T/V271R Long Reach PoE Extenders** are designed to extend the reach of Ethernet Data and IEEE 802.3at Power over Ethernet beyond its natural limitations of 100 m for the network infrastructure. The solution works in pairs for point to point connectivity. It features **V271T** Power over Copper/Coax PoE Extender(CO), the master unit at the central site that can transmit data and power over a single pair of telephone grade UTP wire /Coaxial cable up to 1,000 m. On the receiving end is **V271R** Power over Copper/Coax PoE Extender with 4 PoE(PSE) ports(CPE). Without the need for local power supply, each V271R is equipped with four 10/100Base-TX IEEE 802.3at PoE PSE Ports for total power budget of 30W that can support any remote IEEE 802.3at/af powered device (PD) like Wi-Fi Access Point, IP phone, and IP Camera. It enables centralized management of power supply from a single location for easy, efficient and cost- effective installation. When enabling local power supply by dip switch, V271R can supply power budget of 30W to each one of the four PoE ports. **Yoda V271T/V271R Power over Copper/Coax Ethernet Extender** is an ideal long reach PoE extension solution for service providers to deploy networking applications in public areas that requires Wireless AP, IP Phones and IP Cameras.

### Features

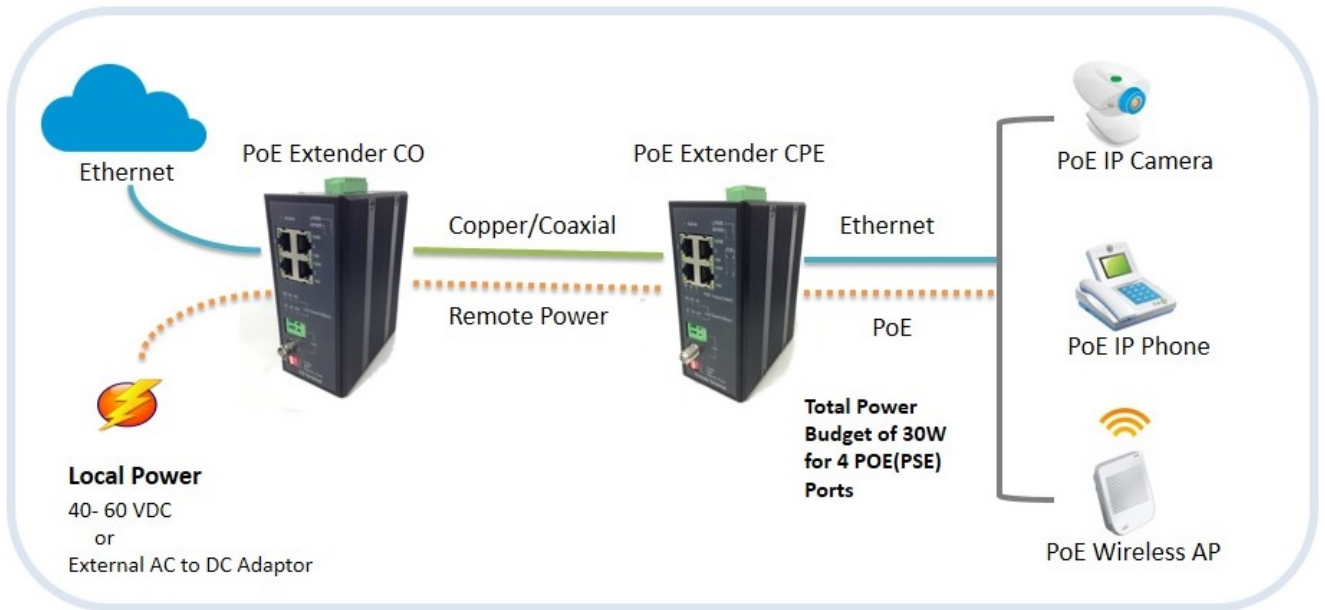

- Complies to IEEE 802.3at/af PoE standards
- Simultaneous transmission of Ethernet data and PoE Power over UTP wire or coaxial cable
- Centralized management of power supply
- Eliminated the need for local power supply at remote sites
- Easy cabling for quick installation
- Long transmission distance up to 1000 m
- Quick deployment and easy maintenance
- Flexible and efficient power management
- Dip Switch to enable local power supply and provide full 30W to each of the four PoE ports

## Application

Remote Power Enable

Remote Power Disable

## Specifications

### Hardware Interfaces:

#### V271T/V271R Power over Copper PoE Extender with four 10/100Base-TX IEEE 802.3at/af PoE Ports

- Terminal Block for Copper Port
- BNC Female for Coaxial Port
- 4 x RJ-45 10/100Base-TX IEEE 802.3at PoE Port

#### 3 Position Dip Switch

- Selectable 30a or 17a(VDSL2 Profile)
- Selectable target SNR margin (6dB or 9dB)
- Selectable Remote Power(ON) or Local Power(OFF)

### LED Indicators:

- Active: System Status
- LPWR/RPWR: Local Power/Remote Power
- POE: PoE Port Status
- Total PoE Output(Watts): 5/15/30
- Line Speed(Mbps): Link/20/40/60/80/100

### Standards Support:

- VDSL2 ITU-T G.993.2
- VDSL2 Profiles: 17a and 30a

### Protocol Support

- Transparent bridging to higher layer protocols

### Operating Environment

- Operating Temperature: -40°C to 75°C
- Storage Temperature: -40°C to 85°C
- Humidity: 10% - 95% (non-condensing)

### Physical/Electrical

- Hardened aluminum case, IP30
- Dimensions: 62 x 135 x 106.5 mm
- Input Voltage: 40 to 60 VDC
- Power Consumption: 65 Watts maximum
- Installation: DIN-Rail, Panel Rack Mounting
- Over current protection
- Automatic short protection

### Regulatory Compliance

- CE
- FCC Part 15 Class B
- EN60950

### Performance

Power over Copper, 24AWG copper wire		
Distance	Line Rate	PoE power (Watt)
300m	100Mbps	30W
600m	65Mbps	15W
700m	50Mbps	10W
800m	45Mbps	7W
1000m	35Mbps	5W

## Order Information

V271T (Master/CO)	Power over Copper/Coax PoE Ethernet Extender with 4 ports FE switch
V271R (Client/RT)	Power over Copper/Coax PoE Ethernet Extender with 4 PoE PSE ports
Optional Accessory	Terminal Block Type External AC to DC Power Adaptor (120 Watts)
